DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11, 13(11), 15(13(11)), 16(11) and 17(16(11)) are rejected under 35 U.S.C. 102(b) as being anticipated by Watts (U.S. Patent 3,871,983).

Watts discloses a hydraulic motor (23) for moving an electricity consumer mounted on a vehicle, the motor comprising working pressure chambers (24, 25) which are adapted to be acted upon by hydraulic fluid for producing rotational movement, a shaft (17) to which the rotational movement is transferred, a stationary head (21), and electric conductors (46) passing into the head from outside the motor and extending through an interior of the motor to the electric consumer.

Regarding claim 13(11), Watts discloses that the electrical conductors (46) comprise slip rings (on shaft 17 in housing 50) and brushes (47) slidingly engaging the slip rings.

Regarding claim 15(13(11)), Watts discloses slip rings (on shaft 17 in housing 50) mounted on the shaft and the brushes (47) are mounted in the head.

Regarding claim 16(11), Watts discloses electric conductors comprising of electric wire (45) and the electric wire passes through the shaft (17) in an axial direction of the shaft and emerges from the motor facing the electric consumer (14).

Regarding claim 17(16(11)), Watts discloses a shaft (17) with a flange (42).

Allowable Subject Matter

Claims 12, 14 and 18-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
